

Support HB 5569 for Early Voting

During the pandemic I found early voting and absentee ballot voting to be very safe and helpful.

This should be available to everyone here in Connecticut.

Please add funding for Early In-Person Voting on this budget bill for 2023 & 2024

-At least 2 weeks of Early In-Person Voting

-Including weekends Saturday and Sunday

-Hours - include early morning 6am - 10am and late evenings 5pm - 9pm

-Minimum number of polling places for each municipality based on population

There is a part of the population who work shifts, or are caretakers and will need expanded hours as well.

Thank you for taking this into consideration.
